

Provide Advanced Resuscitation

HLTAID009 Provide cardiopulmonary resuscitation
HLTAID015 Provide advanced resuscitation and oxygen therapy

Overview

The St John Advanced Resuscitation course is designed for experienced first aiders who use specific equipment and often work in higher risk environments. This course develops advanced skills for providing life support and focuses on the use of oxygen delivery systems and in-depth knowledge and skill in the use of Automated External Defibrillators (AED).

This course also covers the skills and knowledge required to use specialised equipment in the provision of resuscitation and oxygen therapy in line with the Australian Resuscitation Council (ARC) guidelines.

Pre-requisite Unit

Participants are required to undertake or present evidence for HLTAID011 Provide First Aid prior to commencing HLTAID015 Provide advanced resuscitation and oxygen therapy.

Course Duration

St John offers the following options:

- 1 day face-to-face workshop (0830 – 1600): This is full face-to-face course and participants are required to attend the full day.
- Assessment only: The assessment only option will particularly suit participants who regularly apply first aid skills and engage in ongoing learning about first aid.

Certificate

On successful completion of this course you will be issued a statement of attainment in:

- HLTAID009 Provide cardiopulmonary resuscitation
- HLTAID015 Provide advanced resuscitation and oxygen therapy

St John recommends, as per the First Aid in the Workplace Code of Practice and the Australian Resuscitation Council guidelines, that first aid skills are renewed every 3 years and resuscitation skills (HLTAID009/HLTAID015) are renewed every 12 months.

Course Outline

The course covers the following:

- DRSABCD action plan
- Infection control
- Automated External Defibrillation (AED)
- Soft bag resuscitation
- Administration of oxygen
- Oxygen delivery systems
- Oxygen therapy and resuscitation
- Oropharyngeal airway
- Bag valve mask (BVM)
- Legal and other requirements
- Cardiopulmonary resuscitation
- Anatomy and physiology
- Assessment of vital signs
- Levels of consciousness
- Suction equipment
- Maintenance of resuscitation equipment

Assessment methods

A successful outcome for this statement of attainment will be determined by a range of different methods including written assessment, observation of simulated and practical activities, etc.

You will be required to demonstrate CPR on a manikin on the floor.

Locations

St John delivers first aid courses nationally and across many locations in Australia. Choose the location to suit your needs.

- Public (at a venue near you)
- Onsite (at a venue of your choice)
- Online (some training can be delivered online)
